

A PEER-REVIEWED BIMONTHLY JOURNAL

# TURKISH JOURNAL OF UROLOGY

EDITORIAL

DOI: 10.5152/tud.2021.040120

Dear Colleagues,

The Turkish Journal of Urology (TJU) has been published since 1975 and was first indexed by PubMed Central in 2013 and by Emerging Source Citation Index in 2015. The number of international articles submitted to the journal has increased by 100% in the last two years and the journal has become a global character. The goal in the next two years (2023) is to be indexed by SCI.

In accordance with the changing trend in scientific publishing, TJU will only be published online as of the January 2021 issue. The journal's 2020 Endourology supplement reached you in November. Uro-oncology, benign prostatic hyperplasia, and andrology supplements will follow this special issue in 2021.

We would like to thank to the editors, associate editors, reviewers and especially to the colleagues who have submitted articles to the journal.

Please consider TJU as your own journal, submit your evidence based articles to the journal, do a timely and rigorous process as a reviewer, read the articles published in the journal and quote the articles of the Journal.

We sincerely hope to meet you in 2021 in an environment where face-to-face scientific meetings will be held free from COVID-19 and we wish you a healthy, peacefull and scientifically productive year.

Respectfully yours

Ateş Kadioğlu, MD, FECSM  
Professor of Urology  
University of Istanbul  
Editor in Chief

Murat Bozlu, MD  
Professor of Urology  
University of Mersin  
Editor
