

A PEER-REVIEWED BIMONTHLY JOURNAL

# TURKISH JOURNAL OF UROLOGY

## EDITORIAL

Dear Colleagues;

The third online issue of the Turkish Journal of Urology in 2021 includes 12 articles from Turkey, Italy, England, Netherlands, Saudi Arabia, Canada, Germany, Greece, Korea, and India. In this issue, published articles consist of a review in General Urology, a mini-review in Urooncology, a video article in Pediatric Urology, and original articles in Urooncology, Female Urology, Neurouropathy, Pediatric Urology, and General Urology.

In this issue a video article on a new ureteroscopy approach in children and an original article comparing the various second layers (tunica vaginalis flap, dorsal preputial dartos flap, and spongiosum alone) techniques during Snodgrass hypospadias repair will also attract attention.

All the current articles are expected to contribute to the literature and be references for future studies.

Please consider TJU as your own journal, submit your evidence-based articles to the journal, do a timely and rigorous process as a reviewer, read the articles published in the journal and quote the articles of the journal.

Respectfully yours.

Ateş Kadioğlu, MD, FECM
